## **DETAILED ACTION**

### ***Drawings***

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the non-rigid flexible and conforming cloth side panels, and the plastic insert being rotatable from a folded upon itself position to a rotated 90-degree chair type right angle position must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Response to Amendment***

The amendment filed 6/7/05 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: non-rigid flexible and conforming cloth side panels and the plastic insert being hinged and rotatable from a folded upon itself position to a 90 degree chair type right angle position.

Applicant is required to cancel the new matter in the reply to this Office Action.

***Claim Rejections - 35 USC § 112***

Claims 1 and 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 5 "opposite" is confusing since it is not known what the side panels are opposite to; and "side panels" are confusing since it is not clear where they are located in the device; in lines 6-7 "with one strap attached to the top middle and one strap attached to the bottom middle of the side cloth panel" is confusing and unclear since it is not known where the "top middle" and the "bottom middle" are located; in line 6 "the top middle" and in line 7 "the bottom middle" have no definite antecedent basis; in line 12 "the lower middle crotch are" has no definite antecedent basis; in line 13 "a" (second occurrence) should be changed to --an--; and in line 13-18, it is unclear where the hinge is located.

In claim 2, lines 1-3 it is unclear where the crotch strap E free end is attached such that the adapter is attached to the seat; in line 2 "swings" should be changed to --

Art Unit: 3636

swing--; in lines 6-7 "the internal plastic insert of the adapter is rotated into the 90 degree right angle position" is confusing and unclear; and in line 9 "the child's legs" has no definite antecedent basis.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
